

A **BETTER SOLUTION**
IN PHARMACY BENEFITS
MANAGEMENT

VERUS Rx

At **VerusRx**, we know that in the prescription benefits industry, it can be difficult to understand exactly how plan costs are derived and what factors can control them. Often, cost-related details are not discussed in proposals and performance reviews. Many plan sponsors are left hoping they're getting good value, but they can't really be sure.

prescription benefit management services. Clearly, when we set out to establish ourselves in this industry, we knew we needed to bring something new and different to truly be of value. Our philosophy of accountability and cost clarity sets us apart. We make sure our clients understand their costs and how they can control them.

Clients have choices when purchasing

To execute on accountability and cost clarity, we deliver:

PURPOSE BUILT **PHARMACY NETWORK**

A well-balanced pharmacy network should provide customers with broad access for the convenience of their members, while maintaining competitive discounts for brand and generic medications. Our retail network has 60,000 pharmacies nationwide, including chains, independents, grocery and mass market retailers. Mail order pharmacies are also available for clients who choose to have their medications delivered to their doorstep. Specialty medications are provided by our network of specialty pharmacies, including readily available products, as well as limited distribution medications.

OUTSTANDING **CUSTOMER SERVICE**

VerusRx's customer service staff is dedicated to responding quickly and efficiently to customer inquiries. You will find our personalized caring philosophy is not rhetoric, but a demonstrable quality you will come to value.

PURPOSEFUL **ACCOUNT MANAGEMENT**

Your account manager will lead the transition of your group to **VerusRx** and be responsible for ongoing management. The account manager will be your one-stop resource for benefit consultation, benefit design setup, testing and updates to your plan. Acting in a service/consulting capacity, the account manager will assist in the ongoing evaluation and design of a customer's pharmacy benefit plan and strategy.

MEANINGFUL **INFORMATICS**

One key to successfully managing your benefit plan is prompt, accurate and meaningful information. We provide logically organized information that allows you to continually increase your understanding of the critical issues impacting your prescription plan performance.

CLINICAL **SOLUTIONS**

There is significant value in how our comprehensive suite of clinical programs helps optimize the pharmacy benefit. These programs are designed to balance the cost of care with the quality of care, affording members the best options at the lowest possible cost for them and the plan. These programs provide clinical and economic merit to ensure the best possible outcomes for your members and the plan.
